

# UTILITY PADS

PROTECTING  
WHAT  
MATTERS

## DID YOU KNOW

### UTILITY PADS

Lindsay Precast can meet any specification, whether your needs may be high voltage, transformers, control/relay generator skids, or the countless other applications.

### ADVANTAGES

- Pads completely outfitted at our manufacturing facility inside a controlled environment.
- Manufactured at any of our facilities at local specifications.
- Fast, easy and environmentally friendly.
- Easily moveable to relocate for future use.
- Customizable to fit your needs!
- Availability to stockpile to meet your production demands.

- 1 LONG-TERM SAVINGS**  
The sustainable material of concrete can stand up against the harsh weather conditions for a long life cycle.
- 2 EASE OF INSTALLATION**  
Being manufactured in advance, our products are installed easily using a crane and a small crew saving days or weeks.
- 3 AESTHETICS**  
Who doesn't appreciate the natural, timeless appearance of a precast product.
- 4 QUALITY**  
Using precast ensures that your products are manufactured in a controlled environment and produced to NPCA QC requirements.
- 5 AVAILABILITY**  
Using prefabricated products minimizes on-site downtime and overall job duration.
